CIRCULAR.

DOWNING STREET,
15th June, 1892.

MY LORD,—With reference to my Circular Despatch of 24th April, 1888, I have the honour to transmit to you a copy of an Act, passed during the present session of Parliament, to provide for the recognition in the United Kingdom of Probates and Letters of Administration granted in British Possessions.

I have the honour to be, my Lord,

Your most obedient humble servant,
KNUTSFORD.

*The Officer Administering
the Government of Canada.*

CHAPTER 6.

AN ACT TO PROVIDE FOR THE RECOGNITION IN THE UNITED KINGDOM OF PROBATES AND LETTERS OF ADMINISTRATION GRANTED IN BRITISH POSSESSIONS.

[20th May, 1892.]

BE IT ENACTED by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

1. Her Majesty the Queen may, on being satisfied that the Legislature of any British possession has made adequate provision for the recognition in that possession of probates and letters of administration granted by the Courts of the United Kingdom, direct by Order in Council that this Act shall, subject to any exceptions and modifications specified in the Order, apply to that possession, and thereupon, while the Order is in force, this Act shall apply accordingly.

2. (1.) Where a Court of Probate in a British possession to which this Act applies has granted probate or letters of administration in respect of the estate of a deceased person, the probate or letters so granted may, on being produced to, and a copy thereof deposited with, a Court of Probate in the United Kingdom, be sealed with the seal of that Court, and, thereupon, shall be of the like force and effect, and have the same operation in the United Kingdom, as if granted by that Court.

(2.) Provided that the Court shall, before sealing a probate or letters of administration under this section, be satisfied—

- (a.) that probate duty has been paid in respect of so much (if any) of the estate as is liable to probate duty in the United Kingdom; and
- (b.) in the case of letters of administration, that security has been given in a sum sufficient in amount to cover the property (if any) in the United Kingdom to which the letters of administration relate;

and may require such evidence, if any, as it thinks fit as to the domicile of the deceased person.

(3.) The Court may also, if it thinks fit, on the application of any creditor, require, before sealing, that adequate security be given for the payment of debts due from the estate to creditors residing in the United Kingdom.

(4.) For the purposes of this section, a duplicate of any probate or letters of administration sealed with the seal of the Court granting the same, or a copy thereof certified as correct by or under the authority of the Court granting the same, shall have the same effect as the original.

(5.) Rules of Court may be made for regulating the procedure and practice, including fees and costs, in Courts of the United Kingdom, on and incidental to

an application for sealing a probate or letters of administration granted in a British possession to which this Act applies. Such Rules shall, so far as they relate to probate duty, be made with the consent of the Treasury, and, subject to any exceptions and modifications made by such Rules, the enactments for the time being in force in relation to probate duty (including the penal provisions thereof) shall apply as if the person who applies for sealing under this section were a person applying for probate or letters of administration.

3. This Act shall extend to authorize the sealing in the United Kingdom of any probate or letters of administration granted by a British Court in a foreign country, in like manner as it authorizes the sealing of a probate or letters of administration granted in a British possession to which this Act applies, and the provisions of this Act shall apply accordingly with the necessary modifications.

4. (1.) Every Order in Council made under this Act shall be laid before both Houses of Parliament as soon as may be after it is made, and shall be published under the authority of Her Majesty's Stationery Office.

(2.) Her Majesty the Queen in Council may revoke or alter any Order in Council previously made under this Act.

(3.) Where it appears to Her Majesty in Council that the Legislature of part of a British possession has power to make the provision requisite for bringing this Act into operation in that part, it shall be lawful for Her Majesty to direct by Order in Council that this Act shall apply to that part as if it were a separate British possession, and thereupon, while the Order is in force, this Act shall apply accordingly.

5. This Act when applied by an Order in Council to a British possession shall, subject to the provisions of the Order, apply to probates and letters of administration granted in that possession either before or after the passing of this Act.

6. In this Act—

The expression "Court of Probate" means any Court or authority, by whatever name designated, having jurisdiction in matters of probate, and in Scotland means the Sheriff Court of the County of Edinburgh:

DEWDNEY BY-LAWS.

BY-LAW No. 4 OF THE MUNICIPALITY OF DEWDNEY.

A By-Law to provide for the Dyking of portion of Townships 17, 18, 20 and 21, Municipality of Dewdney, and for the borrowing on the credit of the said Municipality the sum of Seventeen Thousand Two Hundred and Twenty-eight Dollars for completing the same.

Provisionally adopted the 20th day of August, A.D. 1892.

WHEREAS a majority in number and value of the owners as on the last revised Assessment Roll of the property hereinafter set forth to be benefitted by the dyking, have petitioned the Council of the said District Municipality of Dewdney, praying that the Council would take the necessary steps to dyke the lands included in the following area, subject to overflow at the seasons of freshet in the Fraser, and being property that will be benefitted by the said dyking,

And whereas the said Council procured an examination and report to be made by J. F. Garden, C. E. D.L.S., being a person competent for such purpose, of the said locality proposed to be dyked, and has also procured plans and estimates of the work to be made by the said J. F. Garden, C.E., and an assessment to be made by him of the land to be benefitted by such dyking, stating as nearly as he can the proportion of benefit which, in his opinion, will be derived in consequence of such dyking, by every road or lot, or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots, and parts of lots hereinafter in that behalf specially set forth and described, and the report of the said J. F. Garden, C.E., in respect thereof and of the said dyking being as follows:—

To the Reeve and Council of the Municipality of Dewdney:

GENTLEMEN,—We beg to report that we have made a survey and examination of the lands adjoining Hatzic Lake, on the north side of the C. P. Railway track, which will be benefitted by the exclusion of the Fraser River flood waters.

It is proposed to effect this by the construction of solid earth embankments on the line of the railway in the places of certain trestle bridges which at present form part of the permanent way, at the same time putting in a sufficient number of culverts or water ways to carry off the water accumulated in Hatzic Lake during high water.

The structures to be filled in are as follows:—

Trestle No. 137, 105 feet long.	No. 138, 1,395 feet long, over Hatzic Lake.
" 139, 93 "	" 140, 91 "
" 141, 527 "	" 142, 105 "

Which will require 103,475 cubic yards to fill.

At the bridge over the Hatzic it is proposed to put in four culverts with 5 feet by 6 feet openings in each, and supplied with flood gates on the south end, which can be closed water-tight during high water. Especial care should be taken by sheet piling and rip-rap, as shown on the plan, to prevent any leakage about these.

At trestle No. 141 a wooden box culvert will be placed under the bank with a gate at the south end as at the large culverts.

The culverts on Thos. Cunningham's and J. W. Wells' lots (one each) are to be repaired and have gates as above fixed to them. It is estimated that these works will cost as follows, and as shewn in detail on the plan:—

Earthwork—103,475 cubic yards @ 22cts.	\$22,764 50
Four culverts at Hatzic Lake—	
Lumber 96,000 ft. B.M. @ \$20 00.....	\$1,920 00
6,000 lin. ft. sheet piling @ 30cts.....	1,800 00
2,000 lbs. iron @ 6cts.....	120 00
Four gates @ \$50 00.....	200 00
3,000 ft. B.M. in gate platform @ \$20 00.....	60 00
3,000 cubic yds. in excavation for foundation @ 50cts.....	1,500 00
1,000 cubic yds. rip-rap @ \$2 00.....	2,000 00
	7,600 00
Box culvert at trestle No. 141—	
2' x 2', 10,000 ft. B.M. @ \$20 00	200 00
Gate	20 00
	220 00
Culvert on Thos. Cunningham's lot.....	100 00
" J. W. Wells' lot	100 00
Total.....	\$30,784 50

In the schedule annexed is given the number of the lots, the owners' names, and the acreage benefitted in each lot. The area is that which the high water of 1882 covered. This gives a total acreage owned by private individuals to be assessed 3,261 75/100 acres, and 19 57/100 acres in roads, giving a grand total area of 3,281 55/100 acres. An assessment of \$5 an acre on this amount gives a sum of \$16,407.75, the tender

made by the C. P. Ry Co. To this assessment must be added a further sum of 25 cents per acre for expenses in connection with publishing by-law, &c.

In view of the foregoing estimate, it would appear that the offer is a reasonable one.

As to whether Hatzic Lake in ordinary seasons would furnish storage capacity for the rainfall and streams entering into it, we beg to make the following observations, which are based principally on the assumption that the drainage area of Hatzic Lake is 75 square miles. This we have no way of proving, but think it cannot be far from the truth, as it would include a portion of the country about 8½ miles square. Assuming the drainage area to be 75 square miles, and the annual rainfall at 50 inches, this would give the total quantity of water which yearly drains into the lake as 8,712,000,000 cubic feet.

During the time of high water in June and July, say for 45 days, the rainfall, according to official reports for that period and time of year, would be about $1\frac{1}{2}$ inches, the one thirty-fourth of the total amount, equal to 256,235,000 cubic feet. This would be reduced by evaporation in the 45 days at the rate of fifteen-hundredths of an inch daily, 19,600,000 cubic feet, leaving an amount to be stored of 236,635,000 cubic feet.

For this purpose we have the lake and slough, an area of about 915 acres, with a height of say 7 feet, to which the water could be raised before overflowing the land. This gives a capacity of 279,000,000 cubic feet, or something greater than actually required as above, thus leaving a certain amount of storage room for seepage, which would be difficult to give an estimate of the amount of. We have estimated the benefit to be derived from the dyke as being equal, in the case of prairie and brush land, as amount necessary to drain the prairie land would be about equal to the cost of clearing the light brush.

We have the honour to be,

Yours respectfully,

Vancouver, August 4th, 1892.

(Signed) GARDEN, HERMON & BURWELL.

Smith and others, being a majority in number and value of the owners as shown by the last revised assessment roll of the property hereinafter set forth to be benefited by the construction of the drainage and dyking works hereinafter provided for, have petitioned the Council of the said Municipality, under the "Municipal Act, 1892," to cause the examination to be made of the following lands to be benefited, namely: Commencing at the high land on the line between Sections 11 and 12, Township 4; thence south to the shore line of Mud Bay; thence along the shore line of Mud Bay to the Big Slough; thence along the bank of the said slough to a junction with the dam and gate; thence southerly along the bank of the said slough to the shore line of the bay; thence along the shore line of the bay to the west side of Section 29, Township 3; a ditch of ample size to commence on the west side of Big Slough, at the middle of the north-east quarter of Section 35, Township 3; thence west to the section line between Sections 34 and 35; thence south a quarter of a mile; thence west to the west side of Section 32, Township 3, all of which lands are in the said Municipality, in Group 2, New Westminster District, in the Province of British Columbia; cause surveys to be made, procure plans and estimates and pass the necessary by-laws, to provide for the construction, protection and maintenance of a dyke of sufficient size and strength, with all the necessary dams, sluices, boxes, locks, gates, &c., commencing at the south-east corner of Section 35, Township 3; thence westerly along the shore line of Mud and Boundary Bays to the west side of Section 29, Township 3; thence north to the north-west corner of Section 8, Township 4; thence east to the north-east corner of Section 11, Township 4; thence south to Mud Bay and place of commencement; and a ditch of ample size to commence on the west side of the Big Slough, at the middle of north-east quarter of Section 35, Township 3; thence west to the section line between Sections 34 and 35; thence south one-quarter of a mile; thence west to the west side of Section 32, Township 3;

And whereas thereupon the said Council procured an examination to be made by Messrs. Keefer & Smith, Civil Engineers, being persons competent for that purpose, of the said locality proposed to be drained and dyked, and has also procured plans and specifications and estimates of the work of construction to be made by the said Keefer & Smith, and an assessment to be made by them of the real property to be benefited by such drainage and dyking, stating as nearly as they can the proportion of benefit which in their opinion will be derived in consequence of such drainage and dyking by every section or portion of section, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the sections hereinafter in that behalf specially set forth and described, and the report of the said Keefer & Smith in respect thereof and of the said drainage being as follows:—

"TURNER BLOCK, VICTORIA B. C., July 9th, 1892.

"To the Reeve and Municipal Council of Delta, B. C.:

"GENTLEMEN,—In accordance with instructions received from your honourable body to make examinations, surveys, plans, reports, estimates and schedule of assessments for the construction of a dyke and trunk drainage ditch in Townships 3 and 4 of the Municipality of Delta, as petitioned for by Wm. McKee and others, we beg leave to report that we have made such examination, surveys, plans, reports, estimates and schedules of the sections, and we recommend that work be done as follows:—

"That an earth embankment of dimensions as stated in our plans and cross-sections, provided with all necessary outlets and projections, be constructed, beginning at the south-west corner of the south-west fractional quarter-section Section 29, Township 3, and shall thence, as shown on our general plan, extend easterly along the coast line to the west bank of the Big Slough near its mouth; thence northerly along the west bank of the said Big Slough to a point in the south-east quarter-section Section 2, Township 4; thence easterly across the said slough to the east bank of the said slough; thence along the east bank of the said slough southerly to the coast line; thence easterly along the said coast line to the centre of the section road between Sections 35 and 36, Township 3; thence northerly along the centre of the said section road to the junction of the said section road with the trunk road leading from Ladner's Landing; thence easterly along the southern ungraded part of the said trunk road to a point in the timber land in the north-east quarter Section 1, Township 4; also that a trunk drainage ditch of form and dimensions as stated in our detailed estimate, provided with the necessary outlet, be constructed, beginning at the north-west corner post, south-west quarter Section 32, Township 3; and shall thence, as shown on our general plan, extend eastward to the south-east corner post of the north-east quarter Section 34, Township 8; thence northerly to a point midway between said post and the north-east corner post of the said Section; thence easterly to Big Slough.

"These works will benefit lands in each of the Townships named.

"We estimate the costs of the works to be \$28,812.00, as shown in our detailed estimate. This sum we assess as in the accompanying schedule against the lands benefited.

"We recommend that the maintenance of the dyke and the trunk drainage ditch be at the expense of the lands assessed for the works herein reported on, the said lands paying in the same relative proportions as for the said work.

"We have the honour to be, gentlemen, your obedient servants,

"KEEFER & SMITH,
"Civil Engineers."
